**February 06, 2012** -- RMSI, a global geospatial and software services company, today announced that it has become an authorized reseller of Google Earth Enterprise and Google Maps API Premier.

Google Earth Enterprise helps organizations with imagery and other geospatial data make that information accessible and useful to decision makers and front-line employees via an intuitive, visual, and fast application. Google Maps API enables organizations to add powerful and easy-to-use interactive maps to their public website or internal applications.

In addition to reselling Google's products, RMSI will also be responsible for deployment, training, management, and maintenance of these products. RMSI received training, support and deployment services from Google, as well as access to APIs for integrating Google's geo products into its customer's business applications.

Anup Jindal, Chief Operating Officer, RMSI said "Adding Google's geo products to our already existing vast portfolio of products and solutions will further strengthen our unique ability to provide complete solutions comprising data, engineering and software in a timely and cost effective manner to meet our customers' critical business needs"
