New Delhi, September, 21, 2018: RMSI, a leading geospatial solutions provider announced the expansion of its utility leadership team with the appointment of Robert G. Brook as Vice President, Utility.

Robert will be responsible for strengthening and implementing RMSI's strategic growth plans in North America. He will spearhead RMSI's go to market plans, client outreach, and development of geospatial enabled solutions for the utilities sector.

Robert has over two decades of experience in the Utility and Geospatial industry in North America. Prior to joining RMSI, he worked as Senior Director for Gas IT at PG&E, and as the Global Pipeline and Gas Utility Industry Manager at Esri. He also worked in leadership roles with Novara Geosolutions and Geospatial Corporation.

Anup Jindal, CEO, RMSI said, "We are excited to have Robert join our leadership team. He brings a proven commercial track record and a wealth of utility domain experience that will strengthen our USA and Canada strategy and strengthen our vision to develop overarching solutions for the utility industry."

The demand for energy, an ever growing list of business needs and the industry's constantly evolving technology are huge challenges for any utility. RMSI has spent two decades building skill sets to address these needs and proving our abilities through success with our clients. I am very excited to use my skills to continue this pattern. I know through the work we do and the partnerships we build, RMSI will make utilities successful." **said Robert. G. Brook, Vice President, Utility.**

About RMSI – Maximizing Business Value

RMSI is a global IT company providing geospatial and software solutions to clients in sectors ranging from utilities, communications, natural resources, land & infrastructure, navigation & location based services, and government & funding agencies.

RMSI is one of the largest geospatial employers with an employee base of over 3500 resources and is consistently ranked amongst the top companies to work for. RMSI has three state of the art development centers in India, and five fully owned international subsidiaries in US, Canada, Australia, UK, and Middle East.

RMSI has the highest levels of certifications and accreditations for its processes, information security and health and safety standards including CMMi Level 5, ISO 27001, ISO 14001:2015, ISO 9001:2015 and OHSAS 18001:2007.
