RMSI Appoints Dr. Erik Shepard as Executive Vice President-Utility, North America

New Delhi, July 5, 2019: RMSI, a leading provider of end to end asset data management solutions to the utility sector, announced the expansion of its leadership team with the appointment of Dr. Erik Shepard as Executive Vice President- Utility, North America.

Erik will lead the utility practice for RMSI in North America and will be responsible for RMSI's growth strategies in the market, including the development of new solutions based on industry challenges and growth. Prior to joining RMSI full-time, Erik served on RMSI's Utility Advisory Board.

Erik has over 25 years of experience in IT/OT systems integration, consulting and project management. His experience includes OMS, DMS, SCADA, GIS, distribution planning, work management, field and substation asset management, graphics work design, mobility, supply chain management and AMI for utilities. In prior roles, Erik has consulted and led projects for more than 30 utilities and has published and presented on a number of topics ranging from the field to the control center.

"I am glad to have Erik join our team. His strong utilities experience and deep knowledge will help us to accelerate our strategy in this market", **said Anup Jindal, Chief Executive Officer, RMSI.**

Dr. Erik Shepard, Executive Vice President-Utility, North America said, "RMSI has strong subject matter expertise in utilities as well as a culture of innovation, and I am proud to join such a capable team to help grow value for our utility clients"

About RMSI – Maximizing Business Value
