RMSI Appoints Hugo van der Linde as Managing Director, RMSI UK & Europe

New Delhi, August 20, 2019: RMSI, a leading geospatial and engineering solutions provider announced the expansion of its leadership team with the appointment of Hugo van der Linde as Managing Director, RMSI UK & Europe.

Hugo will be responsible for managing RMSI's overall growth strategy in Europe and UK markets including driving operational excellence and market expansion. In addition, Hugo will also be driving the organization's mapping vision and growth agenda globally.

Prior to joining RMSI, Hugo worked as Chief Executive Officer with AND International Publishers NV, a public location map data company in Europe. Under his leadership, AND transformed into a technology company driving mapping solutions around big data and AI. He was instrumental in winning large opportunities in the US, Europe and Asia with Fortune 500 technology and automotive companies related to self-driving vehicles. Hugo has also been a successful entrepreneur having set up innovative ventures including a nationwide broadband telecom network and internet service provider.

Anup Jindal, CEO, RMSI said, "We are excited to have Hugo joining the RMSI leadership team as he brings a wealth of experience in mapping, GIS and engineering. I look forward to working with Hugo, to strengthen our growth strategy and expand our footprint in Europe and UK markets.

"Mapping and Location intelligence are becoming more important for businesses everywhere. RMSI is the global leader in geospatial technology solutions and well positioned to further unlock the potential of that business. I am very excited to be part of the RMSI team to help driving growth, excellence and innovation." said **Hugo van der Linde, Managing Director, RMSI Limited, UK.**

About RMSI – Maximizing Business Value

RMSI is a global leader in geospatial and engineering solutions. These solutions address global issues of climate change, natural calamities, human habitation, food security, autonomous transportation, smart utilities and networks.

RMSI is one of the largest geospatial employers with an employee base of over 3800 resources and is consistently ranked amongst the top companies to work for. RMSI has three states of the art development centers in India, and five fully owned international subsidiaries in US, Canada, Australia, UK, and Middle East.

RMSI has the highest levels of certifications and accreditations for its processes, information security and health and safety standards including CMMI Level 5, ISO 27001, ISO 14001:2015, ISO 9001:2015 and OHSAS 18001:2007.
