

RMSI wins FICCI National Geospatial Awards 2022 for 'Geospatial Technology Innovation'

RMSI recently won the prestigious FICCI National Geospatial Awards 2022 in the 'Geospatial Technology Innovation' category. The FICCI National Geospatial Awards 2022 recognized and felicitated some of the path-breaking geospatial initiatives.

RMSI received this award for the project 'Development of Dynamic Web Based Composite Risk Atlas & Decision Support Tool for Cyclone & Associated Impacts including Storm Surge & Inland Flooding'

This recognition by FICCI showcases our commitment to leveraging the potential Geospatial Technologies towards achieving a higher degree of efficiency and our promise to continue innovating for the geo-enablement of our nation.
